

Interested in European Projects related to Industrial Safety & Security ?

Proyectos I+D+i de Seguridad en la Industria

Then contact your National Technology Platform on Industrial Safety & Security (NTPIS)

There you will find the national-adapted Strategic Research Agenda, originally developed by the **ETPIS** at European level (learn more about it at <http://www.industrialsafety-tp.org>).

We all share a global integrated vision on Industrial Safety & Security, which common approach has been deployed through the operational areas:

- Industrial Safety (installations, processes and Safety Products & Systems...)
- Occupational Safety & Health at Work (OSH)
- Environmental Safety
- Enterprise Security (Resilience, Infrastructure Protection, Cyber-security)**

And covered by the different focussed groups

- Risk assessment and management methods
- Advanced risks reduction Technologies & PPE
- Structural safety (ageing, monitoring HMS, RAMS...)
- Human and organisational factors
- Nano-safety
- **Enterprise Security**
 - o **Critical Infrastructures Protection**
 - o **Cyber-security (SCADA & industrial control system)**
- **Safety Transport & Security** (hazardous goods, mass transportation)
- Education, training & transfer to industry, ...

Secretary General of **PESI** the Spanish Technology Platform on Industrial Safety, supported by TECNALIA, is actually in charge of the coordination of the **European Network of NTPIS**. In case a National Platform is not available in your country and you are deeply involved in industrial safety or security issues or trying to promote such kind of structure do not hesitate to contact us.

PESI is offering the Industrial organizations (production, engineering, technology providers...) free information and support to help them access the **R&D European Programmes** through its International Innovation Unit. Other stakeholders (Academia, Research Organizations, public bodies...) could also benefit these offering. Whether you are intending a European project, developing a proposal, promoting a consortium, searching partners, or offering your company expertise and ideas, please feel you free to contact us.
